FARMVILLE.

We enjoyed another brilliant Saturday and a big trade, countrymen and townsmen, buyers and sellers, visitors and residents were all happy. How much satisfaction and success do con tribute to human happiness. Neither the dark nor dismaster has any chance.

I thought that sometime during the life of the exposition the Northmailtes would have gone there in a body, but the authorities know what is best and have no doubt done the best.

How the ready made clothing business has grown in the last few years. There was a time in Farmville history that clothes for grown men were made by our tailors and when clothes for boys were made at home, and we did have accomplished tailors in the olden day. Mr. Evansburt was prince in his profession and I remember some people who would only wear clothes which were made by the late Mr. W. F. Farrar, and the latter once told me that when he was a young man he worked in a shop near Hampden Sidney college and a dozen other workers in the same shop. Are there a dozen tailors now at work in all Southside Virginia? And the good old shoemakers are all dead and we have cobblers instead, and there are no longer carriage or buggy makers with us. The big fish have simply eaten up the little fish and this is called prosperity. I sometimes have my doubts.

November hasn't given us as much of sunshine as October did but in the general has done admirably well. I heard a pious old man once say "there is no bad weather God sends it all and sends nothing that isn't good." Looking on the bright side of a cloud is a fortune of itself. Some one has said that it is "worth a thousand pounds a year to have a habit of looking on the bright side of things, and this is no mean income of itself. It won't "bug head" some but the cheerful man is a worker and will make his own headway and yet "man does not live by bread alone."

Our home gardeners do not pay much attention to the cryanthemum as it deserves. At this Thanksgiving season they are made to bloom out in resplendent beauty in our large cities.

Mrs. T. H. Glenn, of Prospect, raises them to perfection. But then she is a dear lover of flowers; she nurses them carefully and tenderly and they respond to her gentle touchin fairness and fragrance. No woman who does not love flowers finds time to attend to them.

Now the Hon. J. J. Owen has been again elected to the legislature from our county we are expecting a liberal appropriation for the State Female Normal. He has done a great success along this line of legislation and the people of the county appreciate his worth as representative. The gallant gentleman that he is, we too appreciate the fact that Virginia has but one school for her girls and that should be generously cared for. The boys are not entitled to all the good-ness mother's care, and what splendid returns the girls are making the old lady for her loving attention. There is no country in the State and but few communities in which they are not fighting ignorance and encouraging learning. Truly may the old masters say "these are mimosis." It was Carlyle who wrote "that there should one man die ignorant who had capacity for knowledge this I call a tragedy."

The old time habit of spading up the garden in the fall of the year has become absolete and the result we now buy our cabbage from the store instead of getting them from the little mounds in the garden. But where in these days could you find a workor willing to spade a garden? As well expect to find a needle in two hay stacks; and in those days we had gooseberries, currants and raspberries. But the bushes were carefully trimmed and cared for where now there is no trimming and no care and no berries; and we had for instance in our gardens. Now the ice man calls at our doors, rings a bell, and we buy by the pound instead of having it by the bushel. And yet they tell us the world is advancing and things are improving Sometimes it is hard to think so.

This may be called rain coat age and never did more useful article of wear come from the hands of the manufacturer. The imitations are "no good" but the genuine are real luxuries.

Farmville has through the years enjoyed the reputation of being one of the best tobacco markets in the State and yet within her gates no dog is pressed into shape and no cigar rolled.

Dr. Holladay's friends are rejoicing that he has been discharged from the hospital and that he is fast regaining his accustomed health.

Capt. H. H. Hunt, of the Farmville Guards attended the reception given by Governor Swanson in honor of General Grant. The gray and the blue are getting in close touch of one another.

The frosty mornings remind us of "raw days" when we boys use to look after the "mares."

Backward, turn backward, oh time in your flight, and make me a boy again just for a night.

I am surprised now and then to read that some one complains of the rural route system. I thought it was intended to give city conveniences to residences in the country.

Bishop Galloway's sermon on a recent Sunday in the Methodist church was the work of a great master of pulpit oratory. All the people who were privileged to hear him, heard him gladly. The only regret being that the condition of his health would not allow of two sermons on the same day.

Our dispensary is a great money maker, but Farmville has gotten to be a great money spender. In the last report some $59,000 of liquor had been sold and some $58,000 had been spent. None but the rich can afford it.

Our Conservatory of Music is going to do great things for us on musical lines. Its first entertainment was a brilliant success and gave evidence of a high standard of teaching. "Music is the universal language of mankind."

Richmond is lighting her cigars with "script" but Farmville still relies upon the matches.

Our dispensary attendants are asking more pay. They hand out a pile of cash and doubtless think that more of it should "stick." Of these representatives it may with exact truth be said "man works from sun to sun," while of the drinkers it may be added "their work is never done." One more calls for another and yet another.

Handsome memorial windows have been placed in the Methodist church in memory of the late Mr. R. S. Twitette, Mr. T. J. Davis and Col. C. M. Walker.

The death of Mrs Brock, wife of Professor Brock, of Hampden Sidney, has cast a gloom over college circles.

Dr. Jones, of the Normal faculty has just returned from Victoria and says "it is more like a Western town than any place he has seen in Virginia."

Miss Burgess is winning golden opinions as organist at the Presbyterian church.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

OLD BUCKINGHAM.

Many Interesting Reports Made of Her People.

Buckingham.

The pupils of the High School had a long rest while Professor Blankership was off as selecate to Roanoke attending the educational conference. There is a singular situation of affairs. While Superintendent Eggleston is sending out circular letters informing school officials that the State Board of Education has entered into a contract with the Virginia School Srpply Company to supply and furnish school desks and recitation seats for the public schools of Virginia for a period of two years, ending May 29th, 1909 (The Virginia Supply Company having placed before the State Board a bid which was 25 cents lower on each desk than the bid of any other company) manufacturers of desks are sending out price lists to school officials giving their prices and the contract prices in comparison and claiming that they can underbid the lowest bidder and strangest of all we find a Richmond firm trying to sell school desks and recitation seats to school Trustees, when they must know that the State Board has entered into a contract for these supplies which seem binding as regards all the school boards of the State

Dr. S. R. Glover was quite sick at his old home last week and was attended for several days by Dr. Perkins Glover of Arvonia.

The much needed hotel at Arvonia is nearing completion and if when it opens up for business it is well managed, it will fill a long felt want as traveling men say this is the worst place to strike when one is in need of a meal, that is to be found. This place, Buckingham, has long been noted for good hotels and boarding houses.

An old colored man named Napoleon Moseley died in the village on the 24th inst and he was sick only a few days. Pneumonia is said to be the cause of his death.

I heard a prominent physician describe a case in Buckingham where a woman died of consumption recently and that three little girls, her neices staid in the room with her, and when the "white plague" was so infectious that two of the children died with it in the short est time and the third one now has it and will not live more than two months. I was told today of a case near here where a woman gave way to sore and bitter grief because her daughter was to be married although the newly married couple were only to live a few hundred yards from the bride's old home. What about that time worn couplet, "A son is a son 'till he gets a wife; but a daughter is a daughter all of her life."

Folks are killing hogs and some pork was sold here last week at 7 cents. Hog and hominy will be all the go now.

I heard a white man on a song beginning thus. "I don't like a poor white man" and some one near him perhaps made a suggestion as to his financial condition and continuing he said, "I don't like myself."

Much tobacco was "struck" on the fine season some days ago and it has been stripped to get some Christmas money.

Mr. Eli Davidson has sent word to his friends that he will be on the market for a considerable quantity of tobacco and that he will buy at the barns for future delivery. Mr. Davidson tells a mighty funny tale on one of the other buyers.

Some fall plowing has been done. I plowed some but only long enough to plant some onions and Irish "taters."

Folks are selling shucks at 20 cents a barrel and I paid 15 cents a barrel for pulling them off and hossing the corn.

Manteo.

Mr. B. G. Boatwright recently visited Richmond, Newport News and other places of interest.

Miss Sallie Mills Sutton left last Wednesday to visit her friend, Miss Stokey, of Norfolk and attended the exposition.

Mrs. W. F. Woodson started for Ashland, Kentucky on November 25th.

Mr. G. W. Patteson, Jr. spent several days in the Hill City last week.

Mr. and Mrs. F. R. Moon and little sons, Channing and F. R., Jr., accompanied by Miss Louise B. Horsley, recently spent several days at the home of Mrs. C. O. Moon, near Scottsville.

Most of our farmers are sending their tobacco to Richmond. The prices are very satisfactory.

Mr. and Mrs. C. S. Robertson of Georgia are the guests of Mr. and Mrs. E. P. Robertson, of Manteo.

Dr. S. R. Glover, of Howardsville is quite sick at his old home Fountain Ridge. Dr. Perkins Glover, of Arvonia is attending him.

Quite a nice Thanksgiving dinner was given by the Misses Horsley, of Travelers' Rest. Among those present were Mr. Mary C. Laurens and children, Mr. and Mrs. F. R. Moon and sons.

A. C. Horsley, of Scottsville High School spent Thanksgiving at home.

Miss Courtnay Irvin and Miss L. G. Horsley were also guests of the Misses Horsley on Thanksgiving. They were all highly delighted when Miss Horsley brought forth a delicious watermelon.

Hog killing is the order of the day and I fear some are feeling the knife rather soon for the good of the lard tin, but the farmer must consider $3 corn.

The recent warm rains have been great in late sown wheat and oats.

We are indeed glad to have Mr. W. P. Provines with us for another year.

The city sports can be seen in almost any old broom sage field these days. Pop go the guns, off go the birds, or rather that is the way we farmers had rather have it.

To My Supporters in the Recent Election in Buckingham County.

Accept my grateful thanks for your manifestation of confidence in my ability and integrity by your votes, generously given, for the laborious and responsible office of Attorney for the Commonwealth. You all understood the issue I made that the true theory of government is "by the people" finds its original and best illustration in the election of district and county officers by the people of such districts and county officers by the people of such districts and counties, themselves, without dictation, interference, or molestation by party leaders "bosses," or "machines," and this, as applicable to all parties, but more especially to the Democratic party, whose very name from the Greek "demos,the people" signifies "Popular rule" I inaugurated a movement of this sort; thirty-four years ago (July 1873) and have steadfastly favored it, ever since. In this regard, I have always been and do today, a Democrat" rather than the very leaders who have antagonized me, and endeavored to distort my position, which was that of a "conservative," but when the attempt to revive the absurd and impracticable theories of "free trade and direct taxation" and that the "least government, is the best government," I advocated the old whig principle, that the Federal government is the supreme, "People's government, must be respected and obeyed by all citizens, and must have the needful revenues, by a protective tariff on imports, for its maintenance, and successful administration The majority of my fellow-citizens have differed with me and deemed it best to have no actual share in control of their general government, to maintain a "solid south" as their only bulwark against the "Phantom" of negro "domination" I have regretted but could not conscientiously go with them in a course I deemed unwise.

If Marse Henry is to go the united States Senate at all, from old Kentucky, it would be an addition to the gaiety of nations if he could go during the present administration.

They haven't begun to discuss prohibition in Baltimore, but a Baltimore paper mildly remarks that $250 is mighty low licenses fee. That is a starter.

Judge W. H. Mann recently made an address in Staunton in which he advocated the election of a Democrat for the Legislature and opposed the election of a temperance candidate. The Judge seems to intend to put an end to the cry that he is a prohibitionist in his present gubernatorial race, but we did not think that his volting ambition would make him denounce the one hobby which has gained him some little distinction throughout the State—make him rell his birth right for a mess of political pottage. Why he made that speech is a matter of course a conjecture, but as he ran as a temperance candidate two years ago and was defeated it is not fair to presume that he believes the Democratic organization? If this is not his reason why did he denounce the candidacy of a man who is standing on the same platform he has stood on for thirty odd years? As County Judge, he once decided that no man was a proper man and no place a proper place for the sale of liquor, and now as a candidate for Governor he opposes a temperance candidate. Shall such a politial trimmer be elected to the highest office in the gift of the people of Virginia? We believe not.—Brunswick Gazette.

Let the life-long prohibitionist stick to his colors like a man(n) ought to do, but just why Judge Mann should be called upon to bolt a nominee of the Democratic party for a nominee of the prohibition party we cannot understand.

Cut This Out and Save It.

There is so much rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer:

Get from any good pharmacy one-half ounce Fluid Extract Dandelion, and one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the Kidneys so that they can filter and strain from the blood and system the poison, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to use if our readers ask them.

The Scarcity of Laborers.

On account of the scrcity and high price of laborers you should have a Gasoline Engine, the greatest of all labor savers. But don't experiment. Buy a "Fairbanks-Morse." You know what it is. Local selling agent wanted. Write for catalog. A. J. HUFF, State Agent, Richmond, Va.

The Thaw trial without Evelyn's testimony will be like a musical comedy without the chorus.

The corn crop has been housed away and every farmer seems to have enough of his valuable grain. Some farmers have sold a portion of their tobacco crop. While it did not bring fabulous prices, yet they had to be content for the fate of the farmer is well known. It must take what he can get for this most troublesome crop.

The Family Physician

The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Then take it or not, as he says.
